More on the back!

St. Paul's is the school for your child if...

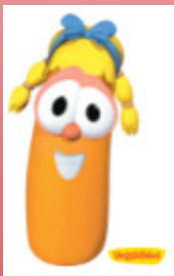

You want your child in an environment where morals, values and personal faith are tended to every day. The Bible is used as the foundation of our school - in the class, on the court, and in our personal behavior. All classes are taught through the lens of the Christian faith. Our teachers view their work as a teaching-ministry to every student.

You want your child to have more individual and academic attention in the classroom. There are very close relationships between our students and teachers here simply because of our small, nurturing class sizes.

You want your child to be exposed to sports, music, fine arts, technology, public-speaking and more! Our school has all the modern technological essentials (SMARTboards, iPads (well-supervised)...). Want to try sports? We have very dedicated coaches! Hands-on learner? We are the school for you! Tons of project-based learning!

You want your child to do well in high-school and beyond. Alumni of St. Paul's School go on to attend Minnesota Valley Lutheran, Sibley East, or Mayer Lutheran for high school. Our graduates are prepared VERY well socially, behaviorally, and academically when they leave.
